

Cell Phone and Pager Email Address, by Vendor

Most alphanumeric pagers and phones have email addresses and text messaging capability.

Many wireless service providers offer this capability but it might not be enabled on some phones.

Many wireless carriers may provide these services for free or at an extra charge. Below is a list of typical email addresses used by service providers. Please contact your wireless service provider for information if they are not listed below.

***"yournumber"* should be in 10-digit format without any delimiters (i.e. 1112223333@...)**
