MT4 Email Setup

On the Menu bar at the top left corner of the platform window, left click on **Tools**.

On the drop down menu, left click on the Options entry.

In the **Options** window that appears:

- 1. Click on the Email tab.
- 2. Click on the Enable box to check it.
- **3.** The **SMTP server** is the Outgoing server of your email client software (MS Outlook, Google, Hotmail, etc.). Enter the SMTP server here.
- **4.** Enter the **SMTP login** name. This may be your email address or it may be a name you supplied when you set up your email service.
- 5. Enter the SMTP password required to access you email account.
- 6. In the From field, enter your email address.
- 7. In the **To** field, enter your email address.
- 8. Now you can send a test message to insure that everything is filled out correctly. Click on the **Test** button to send the test message and then click OK on the popup window that appears, telling you that the message was queued for sending (not actually sent).
- 9. Click on the **OK** button to exit the Options menu.

Options	? 🛛
Server Charts Objects	Trade Expert Advisors Email Publisher Events
2->	Enable
3 -> SMTP server:	smtp.comcast.net:587
4 -> SMTP login:	youraddress@comcast.net
5 >SMTP password:	•••••
6> From:	youraddress@comcast.net
7 > To:	youraddress@comcast.net
8	Test
11	
	9 OK Cancel Help

To check if the test message was sent, click on the **Journal** tab at the bottom of the **Terminal** window
